

12 8V150Ah LiFePO4 Battery

What is a 12V LiFePO4 battery used for?

A 12V LiFePO4 Battery is used as a solar energy storage cell and power supply for 12V household appliances, such as refrigerators, washing machines, TVs, monitors, and air conditioners. It is also perfect for powering various electric appliances of RVs during long-distance travel. Additionally, it is suitable for use on yachts, golf carts, and trolling motors.

What is the price of a 12V 280Ah LiFePO4 battery?

The price of a 12V 280Ah LiFePO4 battery from Sun Fun Kits is \$295/kWh! An error occurred while retrieving sharing information. Please try again later.

Are LiFePO4 batteries safe?

?Unmatched Safety? Our LiFePO4 battery is 100% safe and eco-friendly, providing renewable energy solutions. The built-in Battery Management System (BMS) ensures cell balancing, low and high voltage cutoff, short circuit protection, and temperature protection, ensuring peace of mind during usage.

How much does a 150Ah lithium battery weigh?

Additionally, this battery exhibits no memory effect, allowing it to be used effectively regardless of its current state. ?Lightweight and Versatile? Weighing only 33.06lbs, our 150Ah 12V lithium battery weighs only 1/3 weight of the same capacity lead acid batteries! With no acid in the battery, you're able to safely mount it in any position.

What is eco-worthy 12V 100Ah lithium battery?

ECO-WORTHY 12V 100Ah lithium battery is equipped with a fixture to fix the battery and protect the battery. How is the Eco-Worthy Lithium battery made?

What is the difference between LiFePO4 and lead-acid batteries?

?Efficiency and Convenience? Compared to lead-acid batteries, Pionergy LiFePO4 Battery can be discharged up to 100%, while lead-acid batteries are limited to 40%-50% discharge. Additionally, our battery can be used for twice as long on a single charge, thanks to its impressive charging efficiency.

Unique built-in Battery Management System (BMS) protects our LiFePO4 batteries from overcharge, deep discharge, overloading, overheating, short circuit, and excessive low self-discharge rate. This built-in system can ensure up to 1 ...
