

12 Volt AGM Deep Cycle Solar Batteries

Sun Xtender Batteries

What is a sun Xtender AGM battery?

The Sun Xtender PVX-2580L AGM battery is designed by Concorde Battery Corp. beyond industry standards for longevity, robust power and extreme reliability in remote off-grid solar power systems. VRLA-AGM Deep Cycle Battery for Off Grid and Grid-Tied Systems

Who makes Sun Xtender batteries?

Concorde Battery Corporation has been manufacturing Sun Xtender's deep cycle AGM batteries for the solar and photovoltaic industry since 1987. Sun Xtender's quality, design expertise and customer focus has made the solar battery line the leading green energy battery available in the PV and renewable energy battery markets.

What is a 12 volt AGM battery?

12 Volt Sun Cycle AGM battery designed for solar and inverter use. Specifically designed for solar, the AGM deep-cycle batteries offer maintenance free, sealed construction and integrated carrying handles. Ideal for upgrading lead-acid battery banks. Upgrade your system with the Sun Cycle AGM deep cycle battery designed specifically for solar!

Are AGM deep cycle batteries good for solar?

Specifically designed for solar, the AGM deep-cycle batteries offer maintenance free, sealed construction and integrated carrying handles. Ideal for upgrading lead-acid battery banks. Upgrade your system with the Sun Cycle AGM deep cycle battery designed specifically for solar! We want to hear from you!

What is a Concorde Sun Xtender battery?

The Concorde Sun Xtender PVX-2580L AGM battery is a sealed, valve regulated lead acid (VRLA), absorbed glass mat (AGM) battery designed for off-grid solar power systems. This model features "L" Blade (solid copper) terminals. All Sun Xtender batteries are supplied with silicon bronze bolts, nuts, and washers required for installation.

What is a 12V AGM deep cycle battery?

A 12V AGM (Absorbed Glass Mat) deep cycle battery can deliver 800 cold cranking Amps and is designed for vehicles with plenty of electronics and for audio systems. It has a capacity of 72Ah and can be recharged faster with more than 300 discharge/recharge cycles. Additionally, it has 3x longer life and 15x more resistance to vibration than conventional lead-acid counterparts.

The Sun Xtender PVX-840T is a Group 24 sized 12-Volt deep cycle AGM battery with 84 amp hour capacity. The non-spillable construction allows the battery to be used upright or on its end or side and the maintenance free AGM design ...
