

12V Flooded Battery Series Microtex

What is Microtex 2V flooded battery for UPS?

Microtex 2v flooded battery for UPS have excellent reserve capacity. Deep-cycle characteristics, and recover from deep discharges quickly. Flooded battery is robust in construction housed in the time tested Hard Rubber- ebonite containers or in modern high-impact Polypropylene copolymer (PPCP) hermetically heat sealed containers.

What is Microtex 2V flooded lead-acid battery?

Microtex 2v flooded lead-acid battery have excellent reserve capacity. Deep-cycle characteristics, and recover from deep discharges quickly. Flooded battery are robust in construction housed in the time tested Hard Rubber- ebonite containers or in modern high-impact Polypropylene copolymer (PPCP) hermetically heat sealed containers.

What is a Microtex 12V solar battery?

Microtex 12V Solar Batteries are available with heavy-duty performance tubular plate technology and 12V models ranging from 40Ah to 175Ah. The thicker positive plates ensure the battery functions as a true deep cycle battery.

Who makes Microtex batteries?

Microtex batteries are designed by Dr Wieland Ruscha leading battery scientist & inventor of the copper stretch metal submarine battery design. Comparable to any leading international brands of batteries - our designs match with the best in the world. Microtex batteries are known the world over for its dependable & reliable battery performance

What is a flooded battery made of?

Flooded battery is robust in construction housed in the time tested Hard Rubber- ebonite containers or in modern high-impact Polypropylene copolymer (PPCP) hermetically heat sealed containers. Is flooded battery manufactured with Tubular positive plates?

What is a flooded battery?

Flooded battery manufactured with Tubular positive plates use woven gauntlets to eliminate shedding. Tubular plates ensure good capacity and long cycle life. Microtex 2v Flooded battery are available in following capacities; 40Ah, 80Ah, 100Ah, 120Ah, 200AH, 300Ah 400Ah, 500Ah, 600Ah, 700Ah, 800Ah, 1000Ah and 1100Ah.

Microtex 2v flooded lead-acid battery have excellent reserve capacity. Deep-cycle characteristics, and recover from deep discharges quickly. Flooded battery are robust in construction housed in the time tested Hard Rubber- ebonite ...

12V Flooded Battery Series Microtex

Microtex flooded battery with electrolyte has excellent reserve capacity. Flooded leadacid batteries offer deep-cycle characteristics & deep discharge. ... Highly successful Microtex 12V flooded batteries for the huge inverter battery ...
