

24 OPzS3000 Changguang Battery

What is EnerSys 24 OPzS 3000 powersafe?

The EnerSys 24 OPzS 3000 PowerSafe battery is engineered with an optimized plate design and features an increased capacity that exceeds the internationally recognized DIN standard.

What is a powersafe OPzS battery?

The EnerSys range of PowerSafe OPzS batteries has been designed for use in all standby power applications that demand the highest levels of reliability and security. PowerSafe OPzS cells benefit from an optimised plate design that results in increased capacity compared to the requirements of the internationally recognised DIN standard.

Are powersafe OPzS batteries ISO 9001 certified?

Batteries must be installed in accordance with IEC 62485-2 and national/local regulations. The management systems governing the manufacture of PowerSafe OPzS products are ISO 9001, ISO 14001 and ISO 45001 certified 2022 EnerSys. All rights reserved. Trademarks and logos are the property of EnerSys and its affiliates unless otherwise noted.

What is PowerSafe OPzS?

PowerSafe OPzS batteries are those that feature tubular plate technology, offering excellent cycling performance and a proven long life under float voltage conditions. The pasted negative flat plate design provides the perfect balance for maximum performance.
