

## 2V LC Range Lead Carbon Battery

What is everexceed LC series of lead-carbon batteries?

EverExceed LC series of lead-carbon batteries using the world's most latest and advanced lead-carbon technology, add unique high capacitance and highly conductive carbon materials into the negative electrode, making LC series battery combine the advantages of a lead acid battery and super capacitors.

What is a Leoch lead carbon battery?

Leoch Lead Carbon batteries, LC series, are Carbon AGM Valve-Regulated Lead-Acid batteries. Lead Carbon LC Leoch Battery UK -

What is LC series battery?

EverExceed LC series of lead-carbon batteries using the world's most latest and advanced lead-carbon technology, add unique high capacitance and highly conductive carbon materials into the negative electrode, making LC series battery combine the advantages of a lead acid battery and super capacitors.

What are the advantages of LC series battery?

LC series battery provide not only high energy density, but also, fast charge, rapid discharge and longest deep cycle life performance. which is the best choice for solar and wind renewable energy storage systems and hybrid energy systems. Excellent quick charge performance, reduce charging time by 30%-50%.

What are A1 everexceed modular range valve regulated lead acid batteries?

With proven high reliability, these batteries are A1 EverExceed Modular Range Valve Regulated Lead Acid (V.R.L.A.) batteries are designed for the long standby back-up power requirements of wireless/PCS telecommunications, MTSO's, central offices, utilities, switchgear and control applications.
