

# 5KW Hybrid Inverter with Charger Amplec

What are the best hybrid inverters?

Sungrow SH-RS series are our favourite hybrid inverters due to their numerous features, wide variety of sizes, high backup power rating, simple design and affordability. The SH-RS series is available from 3.0kW to 10kW and features 200% solar oversizing, a digital display, instantaneous backup power, and high efficiency.

What is a hybrid solar inverter?

Like regular string solar inverters, hybrid inverters convert solar DC power from strings of solar panels to AC (alternating current) power used to power your home. However, unlike solar inverters, excess solar energy is used to charge a connected battery system or exported to the electricity grid.

Do hybrid inverters provide emergency backup power during a blackout?

Most hybrid inverters can also provide emergency backup power during a blackout. Hybrid inverters for residential use are available from 3kW up to 15kW in single or 3-phase varieties with various intelligent control features.

Can a hybrid inverter power an off-grid home?

In general, most hybrid inverters are not suitable for providing continuous power to an off-grid home. This is primarily due to their limited surge power rating and inability to manage and control backup power sources like generators effectively.

What is the power rating of a single phase inverter?

The larger 8 & 10kW single-phase inverters have continuous power ratings of 8 & 10kVA, with impressive peak (surge) backup power ratings of 13.6kVA, enabling backup of very large loads, including air-conditioning, water pumps, and other high-surge loads.

Can a hybrid inverter run a whole house backup?

Most hybrid inverters also have limited pass-through power capability, so only essential loads like lighting and backup appliances can be powered in backup mode. Whole house backup generally requires a more powerful hybrid/off-grid inverter.

PowMr 5000W Solar Inverter 48V DC to 110V AC, 5KW Pure Sine Wave Hybrid Inverter Charger Built-in 80A MPPT Controller, Max 500V PV Input, for 48V Lead-Acid/Lithium Batteries . Visit the PowMr Store.
