

6 Mono MOSPEC Semiconductor

Who is mospec power semiconductor company?

MOSPEC is a vertically integrated power semiconductor company. It is technically the most advanced power semiconductor company in Taiwan with extensive product lines. Among its core products are Power Transistors, Schottky Rectifiers, Ultrafast and Fast Recovery Rectifiers, TVS Diodes, and Diodes, and various Surface Mount Devices (SMD).

What products does mospec manufacture?

Among our core power products are power transistors, Schottky rectifiers, ultrafast and fast recovery rectifiers, TVS diodes, and surface mount devices (SMDs). MOSPEC also specializes in silicon wafer processes, producing epitaxial silicon wafers, prime wafers, and crystalline silicon solar cells.

Is mospec a publicly traded company?

MOSPEC Semiconductor Corp. is founded in 1987. MOSPEC is a publicly traded company listed on the Taiwan Stock Exchange. MOSPEC is a vertically integrated power semiconductor company. It is technically the most advanced power semiconductor company in Taiwan with extensive product lines.
