

What is a 12V AGM battery?

An Absorbent Glass Mat (AGM) battery is a sealed lead-acid battery that operates at 12 volts. What is a 12-volt battery? While a battery, from a technical standpoint, consists of one or more cells that allow a chemical reaction to occur, resulting in the flow of electrons in a circuit, an AGM battery is a specific type of 12-volt battery with the AGM technology.

What is a 12V 100Ah AGM?

These 12V 100AH 12 Volt 100 Amp Hour (SLA) AGM with (+ on left) Post Terminal Connector batteries are specially designed to be completely spill proof and leak proof, giving them the ability to be mounted in ANY position.

Can I discharge a 12V AGM battery to 10V?

AGMs normally provide fewer amps for a longer time, and don't mind a deep discharge too much (but it does shorten their life a bit). Some can be Used as starter batteries but might You can discharge an 12V nominal AGM battery to 10 Volts. . . . But don't do that too often. . . Preferably disconnect the load, before it gets below 11 volts.

What is SLA / AGM spill proof battery?

No wire harness or mounting accessories included. SLA /AGM spill proof battery has a characteristic of high discharge rate, wide operating temperatures, long service life and deep discharge recover. Rechargeable battery that can be mounted in any position, resists shocks and vibration. Long lasting high performance in high and low temperatures.

What is a Duracell AGM deep cycle battery?

Duracell Ultra AGM deep-cycle batteries have 2x more cycle life than traditional flooded marine batteries. AGM deep-cycle marine batteries feature a spill-proof design and can be installed in any orientation except upside down. Duracell Ultra AGM battery is the ideal replacement battery for group 31M deep-cycle boat batteries.

Does victron energy AGM battery qualify for free shipping?

This battery does not qualify for free shipping. It can NOT ship via USPS. Please email us or give us a call if you have any questions. Victron Energy AGM batterie range has very low internal resistance making them particularly suitable for high current discharge applications such as for inverters, thrusters and winches.

Die Autobatterie AGM 12V 110Ah Start-Stop von BlackMax ist eine hochpreisige, aber zuverlässige Starterbatterie. Hervorzuheben sind der hohe K&#228;ltepr&#252;fstrom und das Gewicht. Wir empfehlen die Starterbatterie von BlackMax allen, die ...
