

ASW H-S2 Series 3-6K

What is ASW 3-6k h-s2 hybrid inverter?

The ASW 3-6k H-S2 single phase hybrid inverter series features enhanced Intelligent Energy Management System control. This innovative system integrates smart tracking and continuous adjustment functionalities for PV Panels, batteries, loads, and online power.

What is a 3-6k h-s2 hybrid inverter?

Easy commissioning and monitoring with Solplanet app The ASW 3-6k H-S2 single phase hybrid inverter series introduces a remarkable millisecond-level switching speed, seamlessly transitioning from on-grid to off-grid. System upgrades have enhanced the detection of grid disconnection, achieving a swift response in less than 10 ms.

What is the maximum input voltage for ASW h-s2?

Powerful Voltage Supply (?) The ASW H-S2 model offers maximum input of 550V with an initial feed of 50V. This series comes with an input PV power array ranging from 5500 to 9000 Wp STC. Includes 2 independent MPP trackers each with 16A maximum input current.

Are ASW h-s2 inverters IP66 certified?

And with IP66 certification for indoor or outdoor installations, performance is assured no matter the weather conditions. Our new ASW H-S2 series inverters are 494x420x195 mm with a weight of only 21.5 kg. They feature an ultra-quiet mode with natural convection heat dissipation significantly reducing noise levels.
