Megafactory is one of the largest utility-scale battery factories in North America, capable of producing 10,000 Megapack units every year, equal to 40 GWh of clean energy storage. To attain giga scale and change the way the grid is powered, we're looking for exceptional individuals to join us in Lathrop, California.

Workers preparing production lines at the iM3NY factory ahead of its opening in Endicott, New York. Image: iM3NY via Twitter. A lithium-ion battery factory has opened in New York State which could ramp-up to 38GWh annual production capacity by 2030, serving the electric vehicle (EV) and stationary battery storage sectors.

ESS Inc will be a familiar name to Energy-Storage.news readers. The company recorded something of a milestone for the energy storage industry when it became the first company to offer customers a "world-first" long-term insurance plan for battery storage through Munich Re in 2019. It has since extended that deal to long-term warranties.
