All-in-one computer Youhomenergy

Should you buy an all-in-one computer?

An all-in-one computer can be a great family PC or a centerpiece for a home office because the all-encompassing design helps you avoid a mess of display, power, and peripheral wires. However, all-in-ones typically cost more than a laptop or a mini PC plus a monitor, so keep in mind that you're paying more for that streamlined design.

What is an all-in-one computer?

An all-in-one computer combines a PC,monitor,speakers,and webcaminto one streamlined device that has fewer cords and is typically a bit more aesthetically pleasing than a traditional desktop.
