

Aluminium Solar Mounting System

What is a solar panel mounting system?

solar panel mounting system is a patented top-down roof mounting solution designed and manufactured with the installer in mind. This innovative design incorporates anodized lightweight aluminum components to allow for maximum transportation and installation efficiency.

Do you need aluminum extrusions for a solar panel mounting system?

Whether you need aluminum extrusions for a solar panel mounting system or anodizing to protect against severe weather conditions, we can help provide a solution. Whether you are looking for aluminum angles, channels, frame, panel, or racking extrusions, Eagle Aluminum is uniquely able to provide all your aluminum extrusion and finishing solutions.

What is aluminum ground mount?

Aluminum ground mount, optimized for lightweight, quick and efficient installation with flexible on engineering upon site conditions. Optional on foundation by ground screw or concrete. Maximize pre-assembled before shipment. Technical features: Product name: Standard ground mounting system; Application: Flat concrete roof, open terrain;

Why do solar panels have aluminum rails?

The lightweight nature of the aluminum rail utilizes the basic laws of physics to create structural competence rather than just bulking up the rail in height adding unnecessary and costly aluminum. With this design, the RoofTrac system holds a very low-profile look that typically outlasts the life of the solar panels mounted to it.

What is a low-profile top-down solar panel roof-mounting system?

Low-profile top-down solar panel roof-mounting solution by Professional Solar Products. ®; solar panel mounting system is a patented top-down roof mounting solution designed and manufactured with the installer in mind.

Can aluminum be customized to my solar project?

Aluminum frame, mounting rails, and panel extrusions can be customized to your solar projects. Aluminum Experts You Can Trust. We work directly with you to develop custom solar technology solutions. Eagle Aluminum is your single source of stock, custom, and hard-to-find aluminum trims and extrusions for solar technology companies.

The Aluminum ground mounting system is highly anti-corrosion and the most aesthetic structure for ground mount installations. Utilized AL 6005-T6 material, the supporting footing is delivered with highest pre-assembly to unfold at site. ...
