

## Blueplanet 87.0 TL3 KACO

What is BluePlanet 87.0 - 150 TL3?

blueplanet 87.0 - 150 TL3 Transformerless, three-phase string inverters. The trendsetters among inverters. The text and figures reflect the current technical state at the time of printing. Subject to technical changes. Errors and omissions excepted. This current version replaces all older versions.

What is a BluePlanet string inverter?

The blueplanet 87.0 TL3 to 125 TL3 are string inverters whose smart design and superior technology lead to high cost savings in commercial and industrial PV systems.

What is a BluePlanet 92.0 TL3 inverter?

The inverter has SPD type 1+2 arresters on the DC side to protect against overvoltage; the arresters for the AC side as well as the RS485 and Ethernet interfaces can be easily retrofitted. The blueplanet 92.0 TL3 owes its high DC:AC design ratio of 1.5:1 to innovative silicon carbide power transistors.

Does BluePlanet 92.0 TL3 have surge protection?

Check. Surge protection included? Check... The blueplanet 92.0 TL3 should meet most of your requirements. One reason for this: the line voltage of 400 V. It allows you to connect the inverter to the transformer on site - and combine it with the blueplanet 20.0 TL3 for additional MPP trackers.

KACO BLUEPLANET 87.0 TL3 - 125 TL3 là một biến tần mặt trời không biến áp, ba-phase string inverter. Là những người tiên phong trong lĩnh vực biến tần. 文字描述了Blueplanet 87.0 TL3到125 TL3的特点，强调了其智能设计和先进的技术，能够带来高成本效益，适用于商业和工业光伏系统。
