Meet the Bosch Tronic 6000 C The compact yet powerful Tronic whole house electric tankless water heaters are easy to install and deliver enough hot water for large homes. They are 95% efficient with no stand-by loss and have modulating elements that ensure a constant output temperature that homeowners need.

In North America, Bosch Home Comfort is a leading source of high quality water heating and comfort heating systems. In particular, the company offers BOSCH tankless, point-of-use and heat pump electric water heaters, Buderus floor-standing and wall-hung boilers, FHP geothermal systems as well as controls and accessories for every product line.

With the GreenTronic 7000 T you can heat up your water 3-4 times more efficiently than with a traditional electric water heater. Heat pump technology makes that possible, as it takes energy from the surrounding area and transfers it into the tank of water, so you can have a hot shower and reduce carbon emissions.

Dielectric heat trap. Heavy gauges steel tank for extra years of trouble-free service. Glass-lined steel tank to help prevent corrosion.
