

It provides an authoritative reference for guiding the side energy storage system of power plant to connect to power grid safely and normatively. Since the first power plant side energy storage project entered the FM market in 2018, Guangdong's grid-connected scale has exceeded 300,000 KW, forming the most active energy storage market in China.

PRIME Batteries Technology, Eldrive Romania and ALLSPARK Energy present a versatile solution for energy storage and charging electric cars. The "Energy Cube" is named POWER CUBE 150 and can power electric cars with energy captured from the grid or from photovoltaic panels. It is ideal for areas where the electricity grid needs upgrading.
