What is a CpLi?

When a package of care is sourced by our Brokerage Team, once picked up by a provider - the Systems Team will add the care package in our finance system, and this is called a CPLI. The portal therefore allows you to view all care packages for OCC service users that you are supporting.

What is critical path length index (CpLi)?

The Critical Path Length Index (CPLI) is a metric used to measure the relative efficiency to complete a milestone on time. It's used to calculate and graphically display the Critical Path; the longest series of scheduled activities to complete a project. CPLI is a OSD (A&S) tripwire metric. A Critical Path Length Index of:

What does a CpLi of less than 1 mean?

At present, the supplier's CPLI of less than 1.00 indicates that the program will not achieve its baseline completion date without corrective action and the CPLI should be tracked to gauge the realism of completing the contract on time. Updated: 7/19/2021 Rank: G1
