

Clip Lock mounting system Goodsun

How do Klip-lock mounting clips work?

Klip-lock mounting clips offer a non-intrusive alternative way to mount and secure solar panels onto roofs without the need for drilling. These innovative brackets utilize the roof's existing structure by clipping onto the klip-lok roof 'ribs', ensuring a stable platform for solar panel installation.

What makes goodsun a good frame supplier?

With its keen on the offering high quality of frames products, and 16 cutting-edge fully automatic frame production lines, Goodsun has been main frames supplier for plenty of module brands in over 10 countries in Asia, Middle East, EU, US.

Why do solar panels need a clip-lock system?

With a clipping mechanism that securely attaches to the roof without invasive drilling, these brackets mitigate the risk of leaks and structural damage over time. The snug fit offered by the clip-lock design also ensures that the solar panels are less prone to dislodging in strong winds or severe weather conditions.

What certifications does goodsun have?

As certified by QMS ISO9001:2015, EMS ISO14001:2015, OHSAS ISO45001:2018, Goodsun is growing together with our customers to a reliable company, which is not only focus on the innovation and manufacturing, but also take our social responsibility. Goodsun is looking forward to a green future for our future generations with you. Single/Multi R...

What is a clip-lock bracket & how does it work?

Clip-lock brackets are carefully crafted from two key materials: high-yield steel and special-grade aluminum. These materials significantly boost the bracket's durability, strength, and overall weight, ensuring a secure and stable installation for solar panels.

How do Klip-Lok roof brackets work?

These innovative brackets utilize the roof's existing structure by clipping onto the klip-lok roof 'ribs', ensuring a stable platform for solar panel installation. This approach streamlines the installation process and safeguards the roof's integrity by preventing potential damage that drilling could inflict.
