Convertible Bond Outlook Entering 2024, convertible bonds are attractively positioned with a significant yield advantage over equities and higher than usual defensive qualities. Convertible bond valuations look very attractive relative to high yield bonds. This can be seen by comparing Non-Investment Grade convert spreads vs. High Yield "B ...

In this paper, we investigate the maturity structure of convertible bonds and its connection to the corporate debt overhang problem. To achieve this objective, we employ a framework reminiscent of Diamond and He (2014), integrating dynamic corporate investment into our model. Diverging from Diamond and He's model,

Convertible bonds in the energy storage sector

which centers on finite-term straight debt, ...

Convertible bonds have been used by corporations to raise external capital since the middle of the nineteenth century. Initially, they were issued mainly by US railroad companies to finance their growth. It has been a long time since small to medium-sized companies in growth markets were the only ones issuing convertible bonds.

Following the issuance of Jiayuan technology, Science and Technology Innovation Board welcomes another convertible bond! On the evening of March 4th, Trina Solar Energy (688599.SH), the leader of photovoltaic modules, announced that the company's application for the issuance of convertible bonds was formally accepted by the Shanghai Stock ...

So, if a firm issues a convertible bond and their stock takes off, they can do the conversion, and now bondholders have equity and the firm doesn't owe any more on the bond issue. However, because of the potential upside of the equity option, convertible bonds often come to market with lower coupon rates--often 1 to 3 percentage points lower ...

Convertible Bonds April 2020. Performance Update: Convertible Bonds. Antoine Lesne Head of SPDR EMEA Strategy & Research ... Focus On the Energy Sector: Weight Effective Maturity OAS GCVB Index GCVB Index GCVB Index 100.00 100.00 3.33 5.44 364 1,082 Basic Materials 4.79 6.36 2.73 5.35 158 1,116

While convertible bonds saw some recovery in 2023, the lack of exposure to mega-cap technology stocks and the lower-delta nature of the market constrained returns relative to broader equity indexes. These factors have led to outflows in convertible bond mutual funds over the past two years, based on data from LSEG Lipper.
