

A high-quality liquid nitrogen tank is essential for various scientific and industrial applications, from cryopreservation to sample cooling. In this blog, we'll explore the benefits, key features, and safety tips for using liquid nitrogen tanks in the lab, helping ... Sample Storage: Keep sensitive biological and chemical samples safe from ...

Bulk Storage Tanks: Bulk cryogenic storage tanks, used for large-scale storage and distribution of liquefied gases, can range in cost from tens of thousands of dollars to several hundred thousand dollars or even higher. The price is influenced by factors such as storage capacity, construction material, insulation type, and additional features ...

The Nuvair steel 12-tank rack is equipped with four-point lift eyes and fork slots for use by hoist, crane or forklift. When frame and air/nitrogen tanks are ordered together, a stainless steel tube manifold, one inlet valve and one outlet valve are included. Pressure reducing regulators and gauges available as optional equipment. Racks are powder coated blue; other colors available ...

We will continue to enhance our core competitiveness through all-round continuous innovation, making 40 lb nitrogen tank, centrifuge feed pump, conical container and services more satisfying to customers' needs, and making operation and management more standardized and efficient. We're professional liquid nitrogen storage tanks manufacturers and suppliers in China, ...

The Nuvair steel air/nitrogen 16-tank rack is equipped with four-point lift eyes and fork slots for use by hoist, crane or forklift. When frame and tanks are ordered together, a stainless steel tube manifold, one inlet valve and one outlet valve are included. Pressure reducing regulators and gauges available as optional equipment. Racks are powder coated blue; other colors available ...

The Nuvair steel 4-tank air/nitrogen rack is equipped with four-point lift eyes and fork slots for use by hoist, crane or forklift. When frame and tanks are ordered together, a stainless steel tube manifold, one inlet valve and one outlet valve are included. Pressure reducing regulators and gauges available as optional equipment. Racks are powder coated blue; other colors available ...

CRANE® CRYOFLO(TM) Vacuum Jacketed Storage Tank Fill Manifold is ideal for transferring liquid hydrogen (LH2), liquid nitrogen (LN2) and other cryogenic liquids from storage tanks, as it reduces heat loss and evaporation. The manifold is made of stainless steel and has a vacuum ...
