

## DC Series Starlight Power

Does Starlight have a power spectrum?

At the end of season 3, Starlight unleashed an ability she didn't know she had: flight. This showed the other supes (and the audience) that her power spectrum is anything but tapped. With the upcoming release of The Boys season 4, the series has the chance to dive even deeper into Starlight's character and her power set.

What are Starlight's powers in the boys?

Starlight's evolving powers in The Boys showcase her unlimited potential and growth as a character and throughout the series. As the show progresses, Starlight's powers, rooted in electricity absorption, continue to expand, making her a formidable force against powerful supes.

What powers does Starlight have?

Starlight has the ability to convert electricity into blasts of bright light. She doesn't seem to have a ton of experience with her powers when the show begins, seemingly using them mainly to fire blinding bursts of light and drain or power electronics. Starlight can absorb and discharge electricity. Those blasts are portrayed as devastating, too.

Will Starlight's powers reveal the end of 'the boys'?

The Boys is on its fourth season, with a fifth run of episodes already in the pipeline. Though the show remains fresh, with many comic book storylines still yet to be adapted, it will have to come to an end at eventually. What the conclusion of the series will look like is difficult to say, but Starlight's powers could offer a clue.

Who is Starlight in 'the boys'?

In the world of The Boys, Starlight's powers seem to have unlimited potential. She was a timid addition and possibly the weakest member of The Seven in the show's early seasons, but Starlight has come into her own throughout the series.

How did Starlight get her powers?

It also comes after Annie offers a quiet warning to the camera person to look away, or else she'll blind them. As The Boys goes on, Starlight begins to develop more control over her powers. By Season 4, Starlight has begun using her powers to hover. Before her big fight with Firecracker, she even flies into frame. How did she get her powers?
