

# Deye ESS BOS-A High Voltage Storage Battery

What is Deye energy storage system?

Thus, Deye energy storage systems can maintain the voltage and frequency of the power supply. Thus, Deye energy storage systems help in frequency regulations, peak shaving and power management. Deye, the industrial-advanced energy storage system solution provider has launched the BOS-G series "High Voltage Lithium Battery".

What is a Deye Bos-G LiFePO<sub>4</sub> battery?

With its robust design, advanced features, and exceptional performance, the Deye BOS-G LiFePO<sub>4</sub> battery system is the ideal choice for those seeking a reliable and efficient energy storage solution. Deye is the world's leading 100Ah solar battery. We are also looking for partners around the world.

Why should you choose Deye battery?

Deye ensures flicker-free and stable power output without any blackout and helps in achieving economic benefits by integrating lithium batteries with renewable energy systems. BOS-G series comprises lithium batteries which have a capacity of 5.12kWh with a nominal voltage of 51.2V and module capacity of 100Ah.

What are the different types of Deye ESS battery products?

Deye ESS divides battery products into two categories: High-Voltage series & Low-Voltage series. In addition, you can choose trending hot products in the New Arrivals.

Why should you choose Deye for your energy storage needs?

Trust Deye to power your energy storage needs with our cutting-edge technology and unwavering dedication to excellence. BOS-A is a convenient, safe and eco-friendly LiFePO<sub>4</sub> battery module with intelligent BMS, wide temperature range and flexible configuration options for efficient power backup and renewable energy storage.

Does Deye provide energy storage systems with lithium chemistry (LiFePO<sub>4</sub>)?

Deye provides reliable and high-performance energy storage systems with lithium chemistry (LiFePO<sub>4</sub>). These rechargeable energy storage systems can be integrated with renewable energy systems to store the surplus energy generated and supply smooth energy during energy demand.
