

Deye ESS GE-F120-2H2 High Voltage Storage Battery

What is ESS GE f120-2h2?

Introducing the cutting-edge Deye High Voltage All-In-One Hybrid Energy Storage System(ESS) GE-F120-2H2,designed to revolutionize your energy management experience. With a powerful rated power of 50KW and an impressive storage capacity of 120KWh,this state-of-the-art system is perfect for high-rate cyclic charging and discharging scenarios.

What is a GE f120-2h2 battery?

Equipped with a premium Lithium Iron Phosphate(LFP) battery,the GE-F120-2H2 prioritizes safety and performance. The battery pack and system incorporate an aerosol fire-extinguishing solution,ensuring optimal protection.

What is the maximum battery capacity of Deye high voltage hybrid ESS?

The Deye High Voltage All-In-One Hybrid ESS supports battery expansion,allowing for a maximum capacity of 120KWh to meet your growing energy needs. During rated power operation,the maximum temperature of the battery remains below 35°,guaranteeing optimal performance and longevity.

What are the features of the Deye high voltage hybrid ESS?

Additionally, the system features combustible gas, smoke, and temperature detection, along with active exhaust and fire alarm functionalities, providing comprehensive safety measures. The Deye High Voltage All-In-One Hybrid ESS supports battery expansion, allowing for a maximum capacity of 120KWh to meet your growing energy needs.

Where can I find high-quality ESS batteries?

Discover high-quality ESS batteries for efficient energy storage systems at Deye. Explore our range of reliable battery cells for optimal power supply.

How efficient are ESS batteries?

Our ESS battery products boast industry-leading efficiency rates,with inverter efficiency reaching up to 97.60%and charging/discharging efficiency of 95.50%. Our meticulous approach to battery technical specifications ensures optimal performance,enabling your clients to maximize their energy storage capabilities.
