

ees South America, LATAM's key event for batteries & energy storage systems, takes place at the Expo Center Norte in São Paulo, Brazil, on August 26-28, 2025 and focuses on energy storage solutions suited to support and complement energy systems with increasing amounts of renewable energy sources and integrating prosumers and electrical vehicles.

Battery Energy Storage System (BESS) is one of Distribution's strategic programmes/technology. It is aimed at diversifying the generation energy mix, by pursuing a low-carbon future to reduce the impact on the environment. BESS is a giant step in the right direction to support the Just Energy Transition (JET) programme for boosting green energy as a renewable alternative source.

China Central Television (CCTV) recently aired the documentary Cornerstones of a Great Power, which vividly describes CATL's efforts in the technological breakthrough of long-life batteries. The Jinjiang 100 MWh Energy Storage Power Station that appeared in the video is the first application of this technology. Contemporary Amperex Technology Co., Limited ...

On behalf of the Australian Government, the Australian Renewable Energy Agency (ARENA) has today announced \$422,582 in funding for AGL Energy Limited (AGL) to investigate the viability of retrofitting the Torrens Island Power Station B in South Australia with thermal energy storage technology.

The project is located in the outer sea area of Wengle Reclamation in Yueqing, Zhejiang Province, and adopted Chint Power's POWER BLOCK2.0 liquid-cooling energy storage system. Chint Power's POWER BLOCK2.0 liquid-cooling energy storage system combines three major advantages: high specific energy, high performance, and high safety.

South America is one of the leading hydropower producing regions, but some nations in Latin America are looking to introduce nuclear power. Chile, which relies mainly on fossil fuels and hydropower for electricity production, has been considering a nuclear power programme since 2007.

NS Energy profiles the top five hydroelectric generating countries in South America. Brazil -104.1GW. With 104.1GW of installed hydropower capacity, Brazil is the top hydropower producer in South America, as per the 2019 Hydropower Status Report released by the IHA. It is also the second highest producer of hydropower globally, just behind ...
