Did Tesla deploy powerpack batteries at Qatar's first solar and storage project?

Now Tesla deployed Powerpack batteries at the country's first solar and storage project. The Qatar General Electricity and Water Corporation (KAHRAMAA) described it as "a pilot project to store electrical energy using batteries":

Does Qatar have a 'don't get high on your own supply' policy?

Qatar is rich in oil and natural gas, but it has adopted a 'don't get high on your own supply' policy since 2017 and started diversifying with solar. Now Tesla deployed Powerpack batteries at the country's first solar and storage project.

Which companies are accelerating energy storage deployment?

Qatar recently green-lit a big 800 MW solar project and it is deploying solar power at a faster pace. Tesla is also accelerating energy storage deployment with more than 400 MWh being deployed every quarter. The company also has a significant backlog of large energy storage projects using its more recent Megapack.
