

E-Series TS HV 30-80 E Tesvolt

What makes the TS-I HV 80 E series so special?

High-quality battery cells from the automotive industry and innovative technologies such as the DynamiX Battery Optimizer make the TS-I HV 80 E series one of the most durable products on the market. Are you interested in the TS-I HV 80 E? As a TESVOLT partner you will find all information about our products and offers in the Partner Portal.

How can ts-i HV 80 E be used concurrently?

Because the TS-I HV 80 E allows the battery to be used in multiple ways concurrently, several operational management strategies can be combined: for example self-consumption optimisation (SCO), peak shaving (physical or RLPM) or time of use (TOU) and many more.

Why should you choose ts hv 30-80 battery storage system?

The mature technical quality of our new TS HV 30-80 battery storage system is already evident in the impressive framework and modular structure. But for a truly intelligent storage solution you need to choose the right energy management system, one that's precisely aligned with your specific requirements. For greater options, for true freedom.

Who is tesvolt AG?

TESVOLT AG is one of the innovation and market leaders for commercial and industrial energy storage system solutions in Germany and Europe. TESVOLT products enable companies to end their energy dependency and play a part in the energy transition.
