

What is EEI Master solar inverter 1000?

EEI Master Solar Inverter 1000 is the solution for utility scale solar plants with 1000V DC design. Thanks to his high reliability and robustness it gives fast and safe return of investment.

How long do EEI solar inverters last?

Master EEI Solar Inverters are designed to last more than 25 years and are ready to be used for multiple applications: EEI Master Solar Inverter 1000 is the solution for industrial-scale solar systems with 1000 V DC design. Thanks to its high reliability and robustness, it offers a quick and safe return on investment.

What are EEI solar inverters core features?

EEI solar inverters core features are: EEI Master Solar Inverter is the solution for medium and large scale solar systems installed on industrial roofs. Thanks to its high reliability and robustness, it offers a quick and safe return on investment.

Why should you choose EEI solar inverters?

The sun is a free, clean and inexhaustible source of energy. EEI is aware of the growing importance of solar energy in the world energy panorama. Thanks to its consolidated experience in static energy conversion, EEI designs and manufactures inverters for solar applications where high efficiency and reliability are essential characteristics.

What is EEI Master storage inverter?

The EEI Master Storage inverter is the solution to integrate energy storage systems. It is designed to offer all kind of grid management services. Max. Input Current 98,6 % 98,6 % EEI supports its customer with a dedicated service department and provides a complete range of cycle services from commissioning to maintenance, spare parts and repairs.

What is EEI hybrid inverter?

It is designed to offer wide voltage range of battery connection, with dedicated input for each battery rack for the most flexible management of your Energy Storage. EEI Hybrid Inverter is the solution for small and medium scale hybrid plants using solar plus storage technologies.
