

Energy storage quick closing valve

What is a Greenwood quick closing valve?

Process materials include ammonia, butane, propane, pentane, polypropylene, LNG, NGL, mild acids, diesel fuel and hot oil. Greenwood Quick Closing Valves use a reverse check valve design to stop the flow of fluid or vapor in the event of emergency, be it fire, explosion or electrical disruption.

What is a quick closing valve?

For over 60 years, Greenwood Quick Closing Valves have supplied that measure of safety. These sturdy valves provide protection on pipelines and storage facilities in refineries, LPG, chemical, cement and power plants, shipyards, pumping stations, tank farms, and rail loading and unloading facilities throughout the world.

What spare parts do you need for a quick closing valve?

Recommended spare parts include fusible links, shaft packing, cover gaskets and solenoids if the valve is equipped with electrical actuators. Greenwood Quick Closing Valves consist of a WCB-grade cast carbon steel body, 316 stainless steel trim, 17-4PH shaft material, and graphite cover gasket and shaft packing.

Where should a quick closing valve be installed?

Quick closing valves must always be installed on the line with the flow direction over the disc. Valves cannot be installed with a downward-showing bonnet, in horizontal pipelines. 8. MAINTENANCE

How to store a valve?

Protect the valve from excessive vibration during transportation. Optimum storage temperature should be between 5°C and 40°C. Unload all valves from wooden pallets to the ground carefully without dropping. When lifting, the valve should be secured by the body and never lifted by the trim. Condition of stored products shall be periodically verified.

What to do if a quick closing valve is leaking?

After the installation process is completed, check the connections for leaks with water. Do not use the valve if it is leaking. During installation, prevent damage to the paint of the valve. Quick closing valves must always be installed on the line with the flow direction over the disc.

For over 60 years, Greenwood Quick Closing Valves have supplied that measure of safety. These sturdy valves provide protection on pipelines and storage facilities in refineries, LPG, chemical, cement and power plants, shipyards, pumping stations, tank farms, and rail loading and unloading facilities throughout the world.

Quick closing valve Article no: 74500 Revision: 6 7 (22) 1B4.2 Operating principles The valve is a stop valve with a remote quick closing function, but can also serve as a conventional stop valve by using the hand wheel (11). o The quick closing action is instantly carried out by a spring (4), pre-compressed by turning the hand

wheel.

The quick-closing valve is a component for a system of protection. In the event of an incident, the gate closes within milliseconds, thereby avoiding possible secondary explosions. The Kammerer-quick-closing valve is used in various industries, e.g. chemicals, pharmaceuticals, energy, food industry, automotive industry, wood industry, R& D etc.

Quick Closing Globe Valve 901002. LK 901002 Quick Closing Globe Valve, Ductile Iron Body, Stainless Steel Trim, Bolted Bonnet, With Universal Release Cylinder For Hydraulic, Pneumatic Or Tripwire Operation c/w Handwheel, Flanged & Drilled PN10 RF. Pressure rating: PN10. Size (DN) 250. Type approved:

Greenwood Valve - Quick Closing Valves - Lincoln Electric. GREENWOODVALVE The First Choice in Secondary SERVICE Over sixty-five years of continuous service to the oil, gas and energy industry testifies to Greenwood Valves distinguished tradition of design innovation and customer satisfaction. Greenwood Valves engineers and skilled craftsmen turn concepts into ...

Quick closing valve IOM-007-QCV Revision: 4 6 (31) 6 \$ 11B 4.2 Operating principles The valve is a stop valve with a remote quick closing function, but can also serve as a conventional stop valve by using the hand wheel (11). o The quick closing action is instantly carried out by a spring (4), pre-compressed by turning the hand wheel.

Find your quick-closing valve easily amongst the 31 products from the leading brands (PARKER, Egger, ...) on DirectIndustry, the industry specialist for your professional purchases. ... for storage tanks (2) tank bottom. furnace (2) electrical line (2) power line. for slurries (2) ... energy-saving (1) with double pneumatic actuator (1) digital ...
