

FSG875-2 Fullriver Battery

Are fullriver batteries any good?

The Fullriver product line is always the BEST option we give our customers. From the EGL Series for our golf customers or the DC Series lineup for our floor scrubbing and oil and gas applications, they have always proved to last far longer than any other battery out there!

How many volts does a fullriver battery have?

Our manufacturing facility produces a wide range of 2, 6, 8 and 12-volt batteries, in all BCI, DIN and other International sizes. Every Fullriver battery series is designed to be charged and recharged hundreds of times. With the sealed, maintenance-free aspect of all our AGM and GEL batteries, you can simply "Set it" and Forget it".

How long does a fullriver AGM battery last?

LONG LIFESPAN - Fullriver AGM batteries typically last longer than their wet cell counterparts due to 99.994% pure virgin lead, thick plates, and maintenance free design. The HGL Series offers approx. 800 cycles@50% DOD. **FAST CHARGING** - Our AGM technology's low ESR allows for charge rates up to 35% of total Ah for faster charging.

How many times can a fullriver battery be charged?

Every Fullriver battery series is designed to be charged and recharged hundreds of times. With the sealed, maintenance-free aspect of all our AGM and GEL batteries, you can simply "Set it" and Forget it". With a network of trusted distributors across the globe, you'll always be able to find the right battery to fit your needs.

What makes fullriver AGM so special?

BUILT STRONGER - Fullriver AGM is built with thick pure lead plates and Over-The-Partition welds which greatly increase resistance to vibration and shock. **FLEXIBLE INSTALLATION** - AGM batteries can be installed in any orientation, except upside-down, which allows you to fit them in places traditional wet cell batteries can't.

How many cycles does a fullriver agm have?

The HGL Series offers approx. 800 cycles@50% DOD. **FAST CHARGING** - Our AGM technology's low ESR allows for charge rates up to 35% of total Ah for faster charging. **BUILT STRONGER** - Fullriver AGM is built with thick pure lead plates and Over-The-Partition welds which greatly increase resistance to vibration and shock.
