

Flat Roof Mounting System Empery Solar

How do you mount a solar system to a flat roof?

The wide variety of ways to mount a solar system to a flat roof include traditional penetrated solar stanchions with flashing and non-penetrating ballasted solar panel mounts. Solar panels can be mounted on flat roofs without drilling. Ballast mounts are easy to install and have no hole drilling damage to the roof.

Why should you choose a solar mounting system for a flat roof?

After all, the roof has lots of usable space and is often large enough for an extra profit-making function. The solar mounting systems for flat roofs from Van der Valk Solar Systems have been developed with all due attention for roof and wind load, so they comply with the highest safety standards.
