

GEL Battery Series 2V

What is a gel battery 12V deep cycle?

100AH Gel Battery 12V Deep Cycle The 100AH Gel Battery 12V Deep Cycle has super thermal stability and a high deep discharge capability. Additionally, it has good recovery from deep discharge. Even if the battery is left discharged for thirty days, it will still recover to 100% of capacity. Maintenance-free and easy to use.

What is a 12V gel battery?

A 12V gel battery is a spill-proof battery that is resistant to damage from vibrations and can be stored sideways. For these reasons, it is often used for machines that get frequent, heavy use, such as mobility scooters or power wheelchairs.

What is a gel battery?

Gel batteries are a type of valve-regulated lead acid battery that uses a gel solution instead of a liquid conductor. Silica is added to create this gel solution. This means that internal gasses are contained and recombine within the battery, instead of being released as a gas, as they do in other batteries with open vents.

Who makes 2V OPzV batteries?

Vision Group is proudly making 2V OPzV batteries based on tubular plate technology and the fixing of the electrolyte in gel. With largest capacity from 200AH to 3000AH, our OPzV battery can meet your demanding requirements for energy storage needs.

What is 2V gfmj battery?

2V GFMJ Battery is the gel type of 2V industrial battery, which offers more cycle life and service life. This series is good for large power banks, solar and renewable projects, telecom base stations, and other back power systems. Higher and thicker plates, stable construction, good for large power banks such as 48V1000Ah or more.

What is the difference between gel & AGM?

The AGM range has very low internal resistance making them particularly suitable for high current discharge applications such as for inverters, thrusters and winches. The GEL model range offers best deep cycle durability and overall longer life.

The 2v opzv tubular gel battery performance meets the standards specified in DIN 40742, with high deep cycling capabilities. Whatsapp : +86 18676290933; ... JYC OPzV battery series (Tubular GEL) battery is developed tubular positive plates ...
