

# GRES Series SCU

What is SCU GRES system?

GRES is an intelligent and modular power supply equipment integrating lithium battery and PCS.

What is GRES power supply?

GRES is an intelligent and modular power supply equipment integrating lithium battery and PCS. It can access to new energy, grid, diesel generator to realize multi-energy reasonable configuration, scientific utilization, to provide users with green, environmental protection, noise free, high reliability and high security power services.

What is SCU PV generation & ESS solution?

The energy storage system will output energy to power supply the load during the night. Different from traditional PV generation, the significance of SCU PV generation + ESS solution are solving technical difficulties, diversified income, and additional value-added functions.

Grid Renewable Energy Storage Power Supply (GRES) is an intelligent and modular power supply equipment integrating lithium battery and PCS, which can have access to new energy, power grid, diesel generator to provide users with ...
