

GSL Energy High Voltage Battery System

Who is GSL energy?

GSL Energy is a leading lithium battery manufacturer specializing in the production of Powerwall battery, home battery storage, solar battery for house, and lithium ion batteries. Looking For powerwall Supplier?

What is GSL Energy's power storage ESS?

GSL Energy's power storage ESS is a home battery system that adopts the latest HESS battery technology. It offers house battery backup for emergency use and features a fashionable design, high energy and power density, long service life, and ease of installation and expansion.

What is GSL power storage wall?

Use Power storage wall alone or combine it with other GSL products to save money, reduce your carbon footprint and prepare your home for power outages. Max. GSL Power storage wall is a battery that stores energy, detects outages and automatically becomes your home's energy source when the grid goes down.

What is an HSL+ Nickel Cadmium Battery?

An HSL+Nickel Cadmium Battery is a type of Nickel Cadmium Battery developed by HBL for supplying power to critical and demanding applications, such as solar photovoltaic or renewable energy. These batteries are completely reliable with minimal maintenance, and they can withstand deep discharges and rough treatment.

How can I contact GSL Energy?

You can contact GSL Energy at Email: sales@gsl-energy.com or by phone at Tel: +86-755-84515360. Their address is A602-603, Tianan Cyber Park, Huangge North Road, Longgang District, Shenzhen, China. Privacy Statement Copyright © 2018 SEHNZHEN GSL TECH CO LTD

What type of battery does ESS use?

GSL Energy's ESS adopts the latest HESS battery system, specifically the Lifepo4 Battery (models GSL-R20~60K and GSL-20450~40950). For inquiries on the Powerbrick G3~G8, please contact them directly.
