

GT-G Series Gaston Battery

How long does a Gaston GTS battery last?

GASTON GTS range utilizes thick grids of modern technology so as to guarantee the design life up to 15 years. Advanced micro porous absorbent glass mat (AGM) separator,minimizing diffusion of oxygen into the separator, reduces float charge current which suppresses the corrosion rate of the positive grid,and extends the life of the battery.

What is a GT-F Battery?

F (Front Terminal) range is recognised worldwide as the premium battery for telecommunications/IT applications. GT-F range's reputation for 12 year long service life,combined with excellent high rate performance,makes it the number one choice for high integrity,high specification UPS systems.

What is Gaston GT-C range (deep cycle)?

Gaston GT-C range (deep cycle) is designed specially to have a large amount of stored current discharged between charging sessions,with heavy non-porous battery plate that is made of a different chemical for the plates active paste material and a electrolyte stronger slightly than normal battery electrolyte.
