

Gel Battery 12AH 12V

What is a 12V gel battery?

A 12V gel battery is a spill-proof battery that is resistant to damage from vibrations and can be stored sideways. For these reasons, it is often used for machines that get frequent, heavy use, such as mobility scooters or power wheelchairs.

What is a 12V 17Ah battery?

The 12V 17Ah battery was the first SLA battery created for the physical size category known as 'Half a U1'. It has a capacity of 17Ah.

What is a 12V hzy battery?

This 12V, 12Ah HZY series VRLA sealed lead-acid type battery from Haze uses advanced Gel design instead of conventional AGM technology. The battery is particularly suitable for cyclic and deep-discharge applications, poor charging, frequent use, higher ambient temperature and many other extreme applications.

What is a deep cycle gel battery?

Utilizing an innovative gel formation the Power Sonic DCG series of deep cycle gel batteries ensures enhanced performance and a longer cycle life compared to AGM technology. The unique plate design of the deep cycle gel battery provides a higher cycle life at increased depth of discharge.

What is a dcg12-32 battery?

The DCG12-32 is part of our DCG range of deep cycle gel batteries which have been designed specifically to offer superior performance in cyclic... The DCG12-38 is part of our DCG range of deep cycle gel batteries which have been designed specifically to offer superior performance in cyclic...

What is a dcg12-70 battery?

The DCG12-70 is part of our DCG range of deep cycle gel batteries which have been designed specifically to offer superior performance in cyclic... We have a wide range of batteries designed to provide high performance in deep cycling applications.

Gel Battery 12AH 12V
