What is Etechwin & Goldwind's energy storage system?

Goldwind's subsidiary Etechwin provides the project 10MW/10MWh energy storage system, including wind-storage combined control system, 5 suits of 40-foot LFP battery containers and 5 integrated electric control prefabricated cabins for energy storage, power conversion, and pressure boost.

What will Goldwind do for wind energy?

To create and lead the future energy system, Goldwind will not only drive wind power's continued development, but will steadily invest in other value-added applications within the space of wind energy, such as energy storage technology, smart grid, distributed power generation, wind energy desalination, water services and environmental protection.

What is Goldwind's first wind power plus energy storage system hybrid project?

In December, 2020, Goldwind's first wind power plus energy storage system hybrid project--The Lingbi Project in China Anhui province, was completed and put into operation. The approved wind power capacity of Lingbi Project is 50MW, and adopted 16 sets of Goldwind GW140-3.0MW and 1 set of GW121-2.0MW direct drive permanent magnet wind turbines.

What is Goldwind's Intelligent Energy System?

Goldwind's intelligent energy system is based on the intelligent energy management platform. It manages distributed photovoltaic, wind power or (micro) gas turbine and other renewable energy /clean energy power generation methods, to optimize the user-side energy structure.

Who is Goldwind Smart Energy Services?

Goldwind Smart Energy Services is a leading new energy software, data and intelligent services comprehensive solutions provider. Specialized in equity investment and asset management, Goldwind Investment handles Goldwind's strategic investments, business incubation, PE investments, and foreign asset management.

Goldwind is a global leader in clean energy, energy conservation, and environmental protection. As a world-top wind turbine manufacturer, we are committed to providing integrated wind power solutions, including wind farm sitting, design, and construction; wind turbine equipment manufacturing, installation, and maintenance. More than 20 years of professional wind power ...

To promote global energy transformation, Goldwind has thoroughly integrated renewable energy and digital technology. We are actively building zero-carbon solutions for new power system, and optimizing and reconstructing source-grid-storage-load to create an innovative energy asset management model, so we can fully contribute to "carbon ...
