

What is a steel-Max ground mount solar system?

The Steel-Max Ground Mount system is designed to provide robust and cost-effective support for solar panels, crafted exclusively from high-grade . . . Secure your solar investment with our Screw Mount Solar System. Engineered for stability and adaptability, this structure utilizes screw mounts . . .

How does the IronRidge® ground mount system work?

The IronRidge® Ground Mount System combines our XR100® or XR1000® Rails with locally-sourced steel pipes or mechanical tubing, to create a cost-effective structure capable of handling any site or terrain challenge. Installation is simple with only a few structural components and no drilling, welding, or heavy machinery required.

What is a ground mount system?

The Ground Mount System uses either schedule-40 steel pipe or mechanical tubing (e.g. Allied Flo-Coat, Gatorshield, Gatorshield Plus) as the primary structural element. Locally-sourced steel pipe and mechanical tubing minimizes materials and shipping costs, while increasing the speed and flexibility of construction.
