

What is hypontech HPT inverter?

Hypontech HPT inverter is a modern and reliable device that responds quickly to changing conditions both on the DC side and on the grid side. HPT will be great for solar rooftop installations and small ones on the ground. The IP65 degree of protection allows operation outdoors and in adverse weather conditions. Main features Input / DC Max.

What is the efficiency of hypontech 15kW inverter?

Efficiency: 98.6% Hypontech 15kW, inverter with impressive efficiency of over 98%, low starting voltage and exceptional component quality. It provides quiet operation and excellent performance under all conditions.

What is a HPT inverter?

Login or register an account to check price. HPT inverters are a feature-rich series of 3-phase inverters designed for small and medium-sized photovoltaic installations. The HPT series includes models ranging from 3 kW to 50 kW with the ability to temporarily overload DC up to 50%.

Inwertery HPT to bogata w funkcje seria falowników 3-fazowych zaprojektowana do pracy w maßych i äredniej wielkoäci instalacjach fotowoltaicznych. Seria HPT to modele o mocach od 15 kW do 25 kW z moäliwoäciä chwilowego przeciäania ...

Seria HPT to modele o mocach od 15 kW do 25 kW z moäliwoäciä chwilowego przeciäania DC aä do 50%. Falowniki HPT zaprojektowane zostaäy na podstawie najnowszych podzespoäwów elektronicznych renomowanych producentów, np. ...
