

Hybrid Solar Inverter DF Series Xindun Power

Who is xindun solar power inverter manufacturer?

Xindun is a hybrid solar power inverter manufacturer in China. We only supply good quality solar inverter power inverter hybrid inverter and hybrid solar inverter. We accept inverter OEM/ODM order and package.

Does xindun power offer a hybrid solar inverter?

Xindun Power's ZRS series hybrid solar inverter (3KW-25KW) offers versatile configuration options, allowing for operation with or without batteries. When batteries are integrated, it enables the creation of an energy storage solar system.

Who is xindun Power Co?

Xindun Power Co. is one of top manufacturers which specializing in R&D and sales of dc to ac pure sine wave inverter, hybrid solar inverter, three phase inverter, solar generator, solar power system, UPS power supply. Xindun was founded in 2007, head office is located in Foshan, Guangdong, China.

What is a hybrid inverter?

Both solar inverter and hybrid inverter are widely used in PV solar energy into electric energy. Hybrid inverter contains the function of a solar inverter, also adds a built-in solar charge controller. Also it can be a combination of off grid and grid tie inverter in one machine with same description as you called hybrid inverter.

How xindun power works?

The electricity generated by solar or wind energy is DC (direct current), then inverter will convert DC to AC power. When battery power is lacking, it will automatic transfer to grid power for powering continuously. ? Why Choose Us? ? About Xindun Power

Are xindun solar inverters OEM/ODM acceptable?

OEM/ODM is acceptable. Xindun has passed ISO9001 certification, solar inverters and solar controllers have passed CE certification. 6 experienced QC charge of every step of production 24 hours simulation run before delivery. 30000 hours of trouble-free operation dc to ac inverters. 3 years warranty for inverters, solar controllers, ups.

Hybrid inverter contains the function of a solar inverter, also adds a built-in solar charge controller. Also it can be a combination of off grid and grid tie inverter in one machine with same description as you called hybrid inverter.
