

How much power does the ingecon Sun 160tl provide?

The new INGECON SUN 160TL photovoltaic inverter provides up to 160 kW(if connected to a 690 Vac network) in a single 75kg/165lbs unit, reaching maximum efficiency values of up to 99.1% with 1500Vdc technology. Now compatible with high-power PV modules (up to 600W)!

What is the ingecon Sun 3Play 160tl inverter?

The INGECON SUN 3Play 160TL inverter is a rugged, high-efficiency, three-phase, PV inverter with Plug & Play technology. **MANUAL: FIRMWARE**

How does the ingecon Sun 160tl photovoltaic inverter work?

The INGECON SUN 160TL photovoltaic inverter features Ethernet and Wi-Fi communications as standard. These communications, together with the webserver that the inverter integrates, enable a fast and reliable commissioning using a mobile phone, a tablet or a laptop. Furthermore, it is compatible with an external Cloud Connect software.

What is inget team's ingecon solar string station?

Ingeteam's new product, the INGECON SUN String Station, which can achieve a medium voltage power output of up to 6.4 MW, is being supplied as a turnkey solution, with all its devices mounted on the same Skid or metal platform, with the first units having already been installed in various solar plants in Spain. Courtesy of Ingeteam.

How to test ingecon Sun manager connection with inget team server?

Page 114 To facilitate the verification of both requirements, the INGECON SUN Manager software has a tool called Connection test with the Ingeteam server. Follow the steps below to perform this test: In the top menu Utils in INGECON SUN Manager, open Connection test with the Ingeteam server.

What is the ingecon Sun string station?

The Ingecon Sun String Station reaches 6.4 MW of medium voltage output and is supplied as a "turnkey" solution. It was already installed in solar plants located in Toledo and Huesca. The Ingecon Sun String Station.
