

LFP 5kWh-10kWh LV

How many volts a LFP 5-10kwh/lv battery pack?

View and Download SUNKET-ESS LFP 5-10KWH/LV user manual online. 51.2V100/200Ah. LFP 5-10KWH/LV battery pack pdf manual download.

How long does a LFP battery last?

LFP 5-10kWh /LV LiFePO4 BATTERY 51.2V 100/200Ah >15 Yearslife span High inverter compatibility Reliable LFP cells CANbus standard connection Natural cooling system Scalable up to 160kWh 16 (Parallel) IP65 Rating Triple hardware protection Cells cycle times 6000 cycles Smart BMS system to optimize the performance

What is LFP 5-10kwh/lv battery energy storage system?

LFP 5-10kWh/ LV User Manual 1.3 Product identity definition FIG1-1 Battery Energy Storage System nameplate Battery is voltage higher than safe voltage, direct contact with electric shock hazard. Be careful with your actions and be aware of the dangers. The battery product meets the United Nations regulations on transport of dangerous goods.

How do I connect my LFP 5-10kwh/lv battery to my inverter?

Page 20 LFP 5-10kWh/ LV User Manual Communication port interface Connect the CAN Cable of the battery to the CAN communication interface of the inverter using the RJ45 cable. Factory default CAN communication mode. - 18 -...

What happens if LFP 5-10kwh/lv battery is over current protection?

LFP 5-10kWh/LV User Manual 2.4.2 Current Protection Over Current Protection in Charging: When the charging current is greater than the protection value, the battery buzzer alarms and the system stops charging. After the system delays the rated time for 1 min, the protection is released.
