

LM S FIAMM

Are Fiamm LM batteries eco-friendly?

Like all FIAMM lead-acid batteries, the LM range is eco-friendly and fully recyclable at the end of life. The LM series is an OPzS vented range designed by FIAMM to meet DIN 40736 standard. Typical applications include telecommunication, industrial UPS, utilities,...

What is the LM series?

The LM series is an OPzS vented range designed by FIAMM to meet DIN 40736 standard. Typical applications include telecommunication, industrial UPS, utilities, industry, railways and Oil & Gas applications.

Why should you choose the LM series?

The LM series has been designed to provide users with a highly robust and are particularly suitable for applications where discharge cycles need to be one of the highest levels of reliability. As a result of this, the range capacity exceeds the specification laid down by the DIN standard.

What certifications does Fiamm offer?

info.industrial.northamerica@fiamm.com CERTIFICATIONS ISO 9001 Quality Management System ISO 14001 Environmental Management System ISO 45001 Workplace Safety & Health ACCESSORIES Recombination plug Filtering plugs to DIN standard Racks for battery installation (standard and anti-seismic) Monitoring system 05 10 20 oltage

What makes Fiamm standby batteries unique?

FIAMM has a program of continuous improvement investing in manufacturing processes, equipment and technology. FIAMM's Standby Battery manufacture is in compliance with ISO 9001 and ISO 14001 quality assurance. Our continuous investment in battery technology is reflected by means of premium products that are of the highest quality and reliability.

Why should you choose Fiamm?

Its tubular positive plates, a high reliability post seal and fully insulated connections among cells guarantee a long life even in the worst operating conditions. FIAMM has a program of continuous improvement investing in manufacturing processes, equipment and technology.
