

LVX6048WP MPP Solar

What is a lvx6048 split phase inverter?

This LVX6048 is the latest member to MPP Solar's 120V/240V Split Phase inverter family. Adding several important features from our 220-240V European line, this inverter becomes the only low voltage model that offer these 7 valuable features

What is the MPP Solar LV6048?

The MPP Solar LV6048 is a 6000w /160A All-In-One Solar Power Inverter /Charger and free after-sale support comes with it. These units have been a staple in the off-grid solar power community for years for good reason. Was this helpful? Click to buy MPP Solar LV6048.

Can a LVX6048WP run with a GT inverter?

When running in AC Coupling mode with a GT inverter, ensure the GT inverter rating is lower than the LVX6048WP (<6KW) to avoid triggering self-protection. This feature is only applicable to single unit operation, not parallel output.

What are the advantages of using the lvx6048wp?

One important advantage of using the LVX6048WP is that one can easily convert an On-Grid system into a true Hybrid (grid-interactive with battery backup) easily by simply adding LVX6048WP into the existing system and "couple" its output with the on-grid inverter by programming a menu setting. Not satisfied with your purchase?

Is lv6048 rated 6kw/48v?

LV6048, rated 6KW/48V, is a model capable of creating split phase output without the use of parallel. These models can parallel up to 3 units, and from which one can configure system as 3-phase output 208V (phase to neutral). Parallel kits are built-in. LV5048 has been discontinued and replaced by LV6048.

Can LVX6048WP be used for grid injection?

When using a generator as the AC input, grid injection must be DISABLED on the LVX6048WP. An update to version 1.37 is required to use GEN INPUT on models produced after 2022 January. Parallel operation with a compatible generator is now also supported on V1.37.
