

LiFePO4 12 KWH 48V 250AH

Where can I buy a LiFePO4 lithium battery?

Green Bank is an Australian Solar Power Company that offers a wide range of LiFePO4 Lithium Batteries for your Solar Energy Storage System. TOPLi-48-100 uses Lithium Iron Phosphate (LFP) chemistry which is recognized as one of the safest Lithium chemistries currently in use.

How long does a LiFePO4 battery last?

ten years+LiFePO4 chemistry lithium cells have become popular for a range of applications in recent years due to being one of the most robust and long-lasting battery chemistries available. They will last ten years or more if cared for correctly. Let's chat!

Are LiFePO4 batteries safe?

The lithium-iron (LiFePO4) battery has a slight edge over the Li-ion (LiCoO2) battery for safety. This is important because a battery should not get overheated or catch fire in case of overcharging. ...LiFePO4 is a nontoxic material, but LiCoO2 is hazardous in nature, so is not considered a safe material. How long do LiFePO4 batteries last?

What does LiFePO4 mean?

To avoid confusion, most likely you mean LiFePO4, not LiFePo. LiFePo would mean Lithium Iron Polonium. LiFePO4 is Lithium Iron Phosphate. He probably has info on 48V batteries. You may wish to check out the Off-Grid Garage YouTube channel run by another Andy from Australia: Andy imported his LiFePO4 battery cells directly from China.

What solar products does Green Bank offer?

Green Bank offers a wide range of Solar products, including Solar Panels, Lithium Batteries, Inverters & Off-Grid Solar Systems. Shop now!

How long does a lithium ion battery last?

Lithium Ion batteries are going to last you a lot longer than traditional Lead Acid. The chemistry used in Lithium Ion allows for more charge cycles. You may notice that your lithium ion battery gets 3 to 5 thousand cycles in its life, where your traditional battery will only see 1,000 cycles max. That is pretty significant if you ask me.
