

Low Voltage Household Energy Storage System

The updated Tower Series is tailor-made for larger residential applications. Stackable design with self-adaptive modules, five energy choices of up to 21.31kWh with parallel connection available, advanced LiFePO₄ technologies, over-the-air updates, high water proof level and good heat sink... Whatever you need, DYNESS Tower Series is there to meet more of your requirements.

This product is suitable for low-voltage household storage systems of lithium batteries with 16 strings and below. It uses a highly integrated front-end analog acquisition chip to realize the acquisition of battery cell voltage and charge and discharge current. It uses a high-reliability and high-performance MCU as the main control chip.

After checking and clustering the complete offering, we see two general centres of gravity: ‘low voltage systems’ in the range of 48V DC, competing with ‘high voltage systems’ with up to 400V DC, with suppliers of each claiming to provide the more brilliant approach.

Dawnice 51.2v 100Ah 206Ah LiFePO₄ Lithium Battery Low Voltage Home Energy Storage System . Dawnice stacked lithium battery is composed of 51.2v 100ah or 206Ah lifepo₄ battery modules, which can store more energy and is very suitable for home energy storage system. By using our batteries, you can save on electricity costs.

Energy storage secondary main control, real-time monitoring of battery cluster voltage, current, insulation and other status, to ensure high-voltage safety in the cluster, power on and off and power management functions, SOX estimation, support system high voltage, current signal acquisition: HMI: TP-HMI-4.3in-R-12/24V

The home battery backup system can provide green and pollution-free energy for the family, and at the same time, WOCOR low voltage home photovoltaic energy storage can keep household appliances running under the conditions of peak electricity bills and emergency power outages.

Hoenergy adheres to digital energy storage technology as its core and is one of the few domestic companies with a full-stack self-developed 3S system. Hoenergy has created a full range of energy storage products including industrial and commercial energy storage, household energy storage and smart energy storage cloud platforms.
