Safe, contact-free two-day delivery. Free returns extended to 15 days after delivery. Discover the latest features and innovations available in the 24 inches M50A FHD Smart Monitor with Streaming TV in Black. Find the perfect Monitors for you!

What is Delta m50a?

Delta M50A is able to reach 98.6% peak efficiency & 98.4% Euro-efficiency over converting PV energy. 2 sets of MPPT allow more flexibility when PV arrays are facing different directions while minimizing energy losses and maximizing higher yields. All-in-one design with integrated string box / fuses / surge protection devices / DC & AC switches.

Are M70A and m50a the same product?

Since both are effectively the same product except for the display resolution, the M70A comes with Ultra HD 4K while the M50A comes with Full HD 1080p resolution, we shall review them as one when it comes to functions that they share. Then, we will provide a conclusion that gives experience-based considerations for both as separate items.

Where can m50a be installed?

M50A can be mounted on the rack right behind the PV panels. With built-in string box feature and up to max. 10 strings connection, less DC cables will be used during field installation. Easy installation with convenient AC & DC plug connections providing quick and easy connection. Less installation time & less auxiliary units are required.

Does m50a support AirPlay 2?

AirPlay 2 - both M50A and M70A also support AirPlay 2 so you can extend or mirror your screen from a MacBook or iOS device including iPhone and iPad. When connected to a MacBook, you will have the option to use the monitor in dual display mode wirelessly.

Does the M70A & m50a have Office 365 integration?

Use the onboard app to login remotely to your PC. For this feature to work, you will need either Windows 10 Pro or Mac 10.5 or higher. Compatible network settings are also required. Perhaps more notably, both the M70A and M50A also feature full Office 365 integration. That's right.
