

North Korea energy storage vehicle franchise

Is North Korea rebranding Chinese electric vehicles?

Even if North Korea is simply importing and rebranding Chinese electric vehicles, there is currently no known Chinese EV in the market with an official range exceeding 700 kilometers.

Does North Korea have a car industry?

North Korea doesn't have the greatest reputation for, well, just about everything. That includes its car industry, which is a mishmash of foreign imports and locally-made cars from knock-down kits. It has never developed its own car and even ordered 1,000 Volvos in the mid 1970s but "forgot" to pay for them.

Where is Hyundai's energy storage system located?

This file photo provided by Hyundai Motor Group on Jan. 10, 2021, shows its energy storage system linked to a solar power plant in its Ulsan factory, 414 kilometers southeast of Seoul, which reuses retired batteries from electric vehicles. (PHOTO NOT FOR SALE) (Yonhap)
