

Park Tegra Ground Anchor Sunfixings

Where can I find information about the sunfixings product?

Find out all of the information about the sunfixings product: ground-mount mounting system PARK TEGRA GROUND ANCHOR. Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale.

How do I install ground anchors?

Easy to install. We recommend hiring a 2.5 tonne cylinder head hydraulic auger unit, with a reverse option for installing the Ground Anchors. Sometimes the ground may need a little more pressure applying to it and for this, a 4-5 tonne auger unit is better suited. We'll lend you an auger adapter that fits the auger unit to help screw them in.

What equipment do I need to install ground anchors?

Recommended equipment. We recommend hiring a 2.5 tonne cylinder head hydraulic auger unit, with a reverse option for installing the Ground Anchors. Sometimes the ground may need a little more pressure applying to it and for this a 4-5 tonne auger unit is better suited. We'll lend you an auger adapter that fits the auger unit to help screw them in.
