Nicosia, Cyprus. Nicosia is a tale of two cities. It is the story of contemporary life and the legend of ancient history. It is ruins and revival, culture and cafes. Nicosia is a time capsule in a permanent state of being opened. It's no surprise, of course, that the capital of Cyprus would have this paradox.

The 3 MW Photovoltaic Power Station developed and operated by Cyfield - Nemesis is the biggest, privately owned, Grid-Connected Photovoltaic Installation in Cyprus. Construction and commissioning has completed on March 2016 and the Station is on-grid since 23 March 2016.

Storage in Nicosia. The service is very convenient as i needed to leave luggage for few hours in the city center to do a bit of sightseeing. Given instructions were precise and i had no issue with the service. The only doubt i had is a security of my luggage, as it was left straight in the reception hall, i would expect it this be put in some room.
