

# SAI Aluminum Ground mounting system

What is aluminum ground mount?

Aluminum ground mount, optimized for lightweight, quick and efficient installation with flexible on engineering upon site conditions. Optional on foundation by ground screw or concrete. Maximize pre-assembled before shipment. Technical features: Product name: Standard ground mounting system; Application: Flat concrete roof, open terrain;

What is n type solar ground mounting system?

Because of the span range limited from front legs to rear legs, This N type solar ground mounting system is most suitable for 2 row and portrait PV module array. Except HDG ground screws, all mounting components are made of high-quality aluminum and stainless-steel fasteners.

What is open ground mounting system for solar panels?

Open ground mounting systems for solar panels are very common. Our racking model SPC-GA-2V-N is a kind of high-quality aluminum extrusion made with 10 years warranty. The bases are ground screws which can be drilled on most of kind of terrain like: sand, hill, desert, soil land...

Which solar ground racking system is suitable for large commercial plant?

Good appearance and light weight for aluminium profiles; Aluminum solar ground racking system (SPC-GA-2V-N) can be applied to large commercial plant. With proper inner and end clamps, this mounting structure is suitable for both frame and frameless solar panels.

What are the advantages of a ground mount?

The designed with ground screw result in fast, easy and cost efficient installation. Aluminum ground mount, optimized for lightweight, quick and efficient installation with flexible on engineering upon site conditions. Optional on foundation by ground screw or concrete. Maximize pre-assembled before shipment.

SIC SOLAR, as a leading manufacturer of solar mounting structure. Main products: ground screw, aluminum components, roof/ground mountings etc. whole structure will be strictly according to ISO9001 quality management system. 10 Years warranty and 25 Years lifetime. Sincerity Cast Quality, Service Create Value.

The IronRidge Ground Mount System combines our XR1000 Rails with locally-sourced steel pipes or mechanical tubing, to create a cost-effective structure capable of handling any site or terrain challenge. ... Engineered steel and aluminum components ensure durability UL 2703 Listed System Entire system and components meet newest effective UL 2703 ...
