

What is a deep cycle SLA (AGM) battery?

Magnavolt SLA12-150-GC12 Deep Cycle SLA (AGM) Battery Magnavolt premium sealed lead acid batteries are designed for critical power in back up or primary power applications. This VRLA - AGM design with its recombinant technology has been a trusted power source for Emergency Lighting, Electronic Apparatus, UPS (Uninterru

What is a deep cycle SLA battery?

It is an all-purpose power sourcedesigned with the highest grade materials engineered to withstand the harshest conditions and elements. Magnavolt SLA12-150-GC12 Deep Cycle SLA (AGM) Battery Magnavolt premium sealed lead acid batteries are designed for critical power in back up or primary power applications.

What is a NPD12-150Ah AGM deep cycle battery?

The NPD12-150Ah Sealed Lead Acid AGM Deep Cycle Battery is a 12 volt 150 Amp batterymade with heavy duty lead calcium grids and has a floating design life of 10+years. The NPD series is ideal for standby power supplies or frequent cyclic discharge applications.
